EXPERIENCE

Konnectify

Jan 2026 – Jul 2026

Software Development Intern

- Built full-stack features at **Konnectify**, a no-code SaaS iPaaS platform, using **Next.js, NestJS, TypeScript, PostgreSQL, Prisma, Redis, BullMQ, and Tailwind CSS**
- Optimized **Redux** state management, improving workflow builder performance on large automation graphs
- Introduced a task-based crediting system using **Redis**, with aggregated writes batched back to the database
- Built an invite-based user management system with **minute-level granular permissions** and **custom role creation**, with backend endpoints dynamically enforcing access based on assigned roles

PROJECTS

Saga 🌐 [Website](#) 🐙 [GitHub](#)

- Built a full-stack **RAG knowledge-base** platform using **Next.js, FastAPI, Procrastinate, PostgreSQL/pgvector, Pydantic, SQLAlchemy, and Alembic** in a **pnpm/Turbo** monorepo
- Implemented multi-source ingestion for **PDFs, slides, audio, YouTube transcripts, and Markdown files** with async background processing via **Procrastinate** workers
- Built authenticated chat with hybrid retrieval combining **vector search using cosine similarity** and **PostgreSQL full-text search**, fused using **Reciprocal Rank Fusion (RRF)** for citation-backed answers linked to source document chunks

AI Trip Planner 🌐 [Website](#) 🐙 [GitHub](#)

- Built an intelligent travel assistant that creates **personalized, day-wise itineraries** with hotel suggestions and real images of destinations
- Integrated **Google Gemini** for itinerary generation, **Google Places & Images API** for location data, and **Google OAuth 2.0** for secure authentication
- Implemented trip history and optimized **AI prompting** to improve itinerary quality, with an **interactive Google Maps-powered map** for viewing recommended locations and hotels

EDUCATION

SASTRA Deemed University

2022 – 2026

B.Tech in Computer Science and Engineering

Tanjore, India

- **CGPA:** 8.86
- **Coursework:** Data Structures, Algorithms, Databases, Web Development, Cloud Computing

Kendriya Vidyalaya, Kalpakkam

2010 – 2022

12th and 10th

Kalpakkam, India

- **12th:** 95.2% | **10th:** 93%
- Ranked in the top 1.5% nationally and awarded INR 10,000 for academic excellence

SKILLS

Languages: TypeScript, JavaScript, Python, SQL

Backend: NestJS, Express.js, FastAPI, REST APIs

Frontend: Next.js, React, Tailwind CSS, Redux, Zustand

Data & Infra: PostgreSQL, Redis, MongoDB, Prisma, BullMQ, Git, GitHub Actions, Docker
